Placement Webinar

Srusti Academy of Management, Bhubaneswar organized a Placement Webinar on "Resolve and Resilience For Better Employability Post Covid-19 Pandemic" on dt.28th April,2020 at 3pm. Prof.Susant Kumar Das, Principal delivered the welcome address and emphasized on the importance of placement in a student's life after completion of graduation. Mr.Parthasarathi Mishra, Ex. CHRM Tata Steel Kalinganagar was the key note speaker who was hopeful that this chaotic COVID -19 situation will certainly change and make us more perfect and resilient .Aviation, Heavy industries and Automobiles will be greatly affected but Agriculture, Bio-fertilizer, Telecom sector, Logistics and supply chain will flourish. There will be requirement of psychological counselor in schools, colleges and companies to deal with

this stressful situation. Work from home concept and Digital Platforms will be popular and he concluded by saying that surely we Indians will come out from this pandemic through our determination and strong will power.

Mr.Mainak Ranjan Chaki, Group Vice President & Head Human Resources, Skipper Ltd explained about Skilling and Up-skilling and emphasized more on online sales and marketing concept. As Chinese orders are getting cancelled globally so India may emerge as the prospective nation for business investments. Artificial Intelligence and other digital platforms will be mostly relied upon and searched for during this situation so students need to have some basic knowledge on it. Students should also explore new opportunities on e-commerce. Big opportunities are coming on their way. So, students need to be patient and stay focused. According to him, social sector and NGO jobs will boom .Life will not stop due to this sudden jerk rather alternative solutions will come out. Banking sector will be partially affected unlike tourism, hospitality and aviation. If we wait with patience and intelligence, the situation can be a blessing in disguise. Mr.Chaki concluded with the assurance that our time will come and India can be a soul searching guide and mentor for all other nations.

Er.Saroj Kumar Sahoo, Chairman suggested if students are equipped with right skills and knowledge , they will surely prosper. They should take the advantage of this online learning platform and positive vibes from this webinar as well and stay focused in their studies.

Dr.Gangadhar Mishra, Director Placement & Corporate Relation as Session Moderator gave vote of thanks and urged students to have two important things in their lives like common sense and good communication skills which altogether can take them to greater heights.
